

I am a listener of K-LOVE radio at 91.9 in my hometown. K-LOVE is especially important to me because of the family-friendly programming they offer. I never have to worry about what my 10-year old daughter may hear on the airwaves with K-LOVE. What we as a family and a listening community take away from this radio station is positive and encouraging thoughts and music. In our world today, where family members are serving our country abroad, they can be linked to the family at home by this same encouraging messenger. I choose to listen to K-LOVE radio station so that my 10-year old can listen with me to the wholesome values they project and I support. I believe the effects of not having access to K-LOVE on the air would be devastating.
